pump out, repair, or  
replacement!**

**APPLY NOW!**

**<http://wp.me/P3csIi-1d>**

PLEASE  
PLACE  
STAMP  
HERE

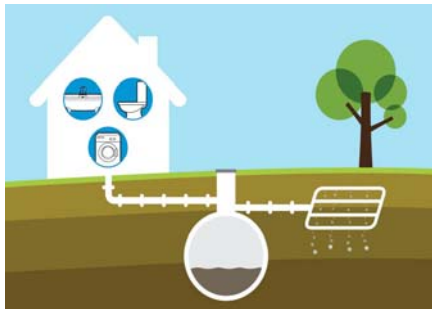

## Did you know?

Your septic tank should be pumped out every 3-5 years. This helps extend the life of the system, reduce risk of failure, protect drinking water and your family's health, and prevents dangerous bacterial and nutrient pollution from getting into Bacon Creek.

**Pumpout your septic tank!**

**Repair your septic system!**

**Replace your septic system!**

**We have cost-share funding for residents in the Upper Bacon Creek Watershed.** This includes the area within U.S. 31E, Route 1079 west of Magnolia; Route 224 east of Wheeler Rd, and south to Route 936.

Homeowners with sub-standard or malfunctioning systems that participate in this program are **not subject to any enforcement actions or fines** from inspections.

**For more info: Call 502-589-8008, email [Tim@KWAlliance.org](mailto:Tim@KWAlliance.org), or visit <http://wp.me/P3csIi-1d>**

Funding provided in part by a grant from Kentucky Division of Water using EPA Section 319(h) funds.
